The meeting was called to order at 2:25 p.m. NOTE: A list of the materials reviewed at the meeting shall be attached to these minutes.

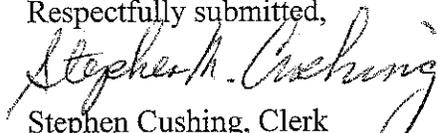

The purpose of the meeting was to discuss the findings of the Board of Health regarding the Tabor field drainage and also the possible revocation of Tabor Academy's street opening permit. During the discussion the following issues were addressed:

- Mr. Johnson described the Tabor field as a "parking area that has now been completed"
- Ms. Walega said the drainage plan has never been reviewed by the Board of Health as required by the by-law
- Mr. Cushing said he believes that this is another example of the need for a site plan review
- Mr. Blanchette said the Board needs to consider this in context of the fact that the field is now considerably less pervious
- Mr. Blanchette voiced concern that the retention pond is inadequately sized
- Mr. Cushing said he believes that there is enough of a substantial change to require Board of Health review
- The Board of Health would require drainage calculations as well as a qualitative analysis of water runoff.
- Ms. Walega explained that in addition to site plan review, the Board of Health has regulations that require Board of Health review prior to installation.

Moved by Mr. Cushing and seconded by Mr. Blanchette to rescind the street opening permit. Restoration will be contingent upon receipt of requested material together with Board of Health review and approval of same according to usual and customary procedures.

Moved by Mr. Blanchette and seconded by Mr. Cushing at 2:58 p.m. to adjourn.

Respectfully submitted,

Stephen Cushing, Clerk
