GEORGE BONUM NYE AREA

The George Bonum Nye Area (MRN.F) was first surveyed in 1998. Improved access to research resources such as deed registries, genealogical databases, census lists, city directories, newspaper archives, image files, and other research tools has enabled the collection of new information on the properties in this area. Corrections and additions to the data reported in the 1998 Area Form MRN.F have been incorporated in the newly created Building Form Bs for each of the historic properties surveyed in the George Bonum Nye Area. These changes often include revised construction dates and ownership histories. Note that six historically and architecturally significant properties that were not surveyed in 1998 have been added to the area, resulting in an adjustment to the area map on the preceding page. These include 5 Clark Street; 237, 247, and 323 Converse Road; and 17 and 36 Pleasant Street. The house originally surveyed at 81 Lewis Street (formerly 83 Lewis Street) was demolished and replaced in 2005.

There are a number of mid-20th century Cape-style houses among the infill properties in this area. Moderately-sized and well-designed, they complement their older neighbors and add to the historic character and architectural integrity of the neighborhood.

Photograph	Historic Name Arch. Style/Form	Address	Parcel #	Year	MHC #
	Joseph H. Clark-Edwin-Edwin Ashley House Queen Anne See MHC Building Form MRN.82	5 Clark Street	15-42	ca. 1880	MRN.82

--------	----------------

with several high-style examples of these styles, the area also includes a handful of earlier dwellings in the Cape and Federal styles that pre-date the building boom that began in the second half of the 19th century.

The majority of the resources here retain substantial integrity of location, setting, materials, workmanship, design, feeling, and association. The district would likely meet criteria A and C at the local level, with areas of significance in social history and architecture.
